Tolleson, Arizona 85353

State law mandates that school districts required to undergo an annual single audit publish a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States of America and audited in accordance with auditing standards generally accepted in the United States by a certified public accounting firm licensed in the State of Arizona. Pursuant to that requirement, we hereby issue the annual comprehensive financial report of the Tolleson Elementary School District No. 17 (District) for the fiscal year ended June 30, 2022.

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed both to protect the District's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with accounting principles generally accepted in the United States of America. Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free of material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The District's financial statements have been audited by Heinfeld, Meech & Co., P.C., a certified public accounting firm. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2022, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the District's financial statements for the fiscal year ended June 30, 2022, are fairly presented in conformity with accounting principles generally accepted in the United States of America. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the District was part of a broader, federally mandated Single Audit as required by the provisions of the Single Audit Act Amendments of 1996 and Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the District's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in a separately issued Single Audit Reporting Package.

Accounting principles generally accepted in the United States of America require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

PROFILE OF THE DISTRICT

The District is one of 58 public school districts located in Maricopa County, Arizona. It provides a program of public education from kindergarten through grade 8, with a fiscal year 2021-22 un-weighted average daily membership of 2,586.

The District's Governing Board is organized under Section 15-321 of the Arizona Revised Statutes (A.R.S.). Management of the District is independent of other state or local governments. The County Treasurer collects taxes for the District, but exercises no control over its expenditures/expenses.

The membership of the Governing Board consists of five members elected by the public. Under existing statutes, the Governing Board's duties and powers include, but are not limited to, the acquisition, maintenance and disposition of school property; the development and adoption of a school program; and the establishment, organization and operation of schools in accordance with Board established policies. The Board, through its policies also has broad financial responsibilities, including the approval of the annual budget, and the establishment of a system of accounting and budgetary controls. The Board and administration evaluate the effects of the District's policies and revise them as necessary. There were no significant revisions of the District's financial policies that would impact the current period's financial statements.

The financial reporting entity consists of a primary government and its component units. A component unit is a legally separate entity that must be included in the reporting entity in conformity with generally accepted accounting principles. The District is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Furthermore, there are no component units combined with the District for financial statement presentation purposes, and the District is not included in any other governmental reporting entity. Consequently, the District's financial statements include only the funds of those organizational entities for which its elected governing board is financially accountable. The District's major operations include education, student transportation, construction and maintenance of District facilities and food services.

The Tolleson Elementary School District No. 17 is located 14 miles west of downtown Phoenix. The City of Tolleson, a portion of southwest Phoenix and the northeast section of the City of Avondale are included within the area served by the District. The District encompasses an area of approximately 6.25 square miles.

The annual expenditure budget serves as the foundation for the District's financial planning and control. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual expenditure budget approved by the District's Governing Board.

The expenditure budget is prepared by fund for all Governmental Funds, and includes function and object code detail for the General Fund and some Special Revenue and Capital Projects Funds. The legal level of budgetary control (that is, the level at which expenditures cannot exceed the appropriated amount) is established at the individual fund level for all funds. Funds that are not required to legally adopt a budget may have over expenditures of budgeted funds. The budget for these funds is simply an estimate and does not prevent the District from exceeding the budget as long as the necessary revenue is earned. The District is not required to prepare an annual budget of revenue, therefore a deficit budgeted fund balance may be presented. However, this does not affect the District's ability to expend monies.

FACTORS AFFECTING FINANCIAL CONDITION

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the District operates.

Local Economy. The economy of the cities of Tolleson and Avondale and of Maricopa County, in general, is a mixture of farming, commercial enterprises, light manufacturing and food processing. The largest employers represented by major firms in the Tolleson area are Banner Health Systems, Wal-Mart Stores, Frys/Kroger Food and Drugs Stores, Wells Fargo Company, Amazon.com, Inc. In recent years, the City of Tolleson has been successful in attracting businesses to locate their warehouse facilities in the City due to the freeway, railroad and airline accessibility. This has been and will continue to be a positive contributing factor to the District's potential economic growth for many years to come.

In addition, the metropolitan area provides excellent educational and training opportunities through seven community colleges, four private colleges and graduate schools, and two state universities.

Maricopa County is located in the south-central portion of Arizona and encompasses an area of approximately 9,226 square miles. Its boundaries encompass the cities of Phoenix, Scottsdale, Mesa, Tempe, Glendale, Chandler, and such towns as Gilbert, Paradise Valley and Fountain Hills. Maricopa County is currently the nation's fourth largest county in terms of population size and the 14th in land area. The County's 2021 population was estimated at 4.5 million is still expected to reach 6.0 million by 2030.

Maricopa County continues to have a very wide range of economic sectors supporting its potential growth. Maricopa County has, for some time, enjoyed an unemployment rate that was somewhat lower than the national average.

Service is the largest employment sector in the County, partly fueled by the tourism industry, which as most service industries, have had the most decline during the pandemic. The County still has excellent accommodations, diverse cultural and recreational activities, and a favorable climate attracting millions to the area annually. Wholesale and retail trade is the second largest employment category.

Long-term Financial Planning. In November of 2018, the District's voters approved a continuation of a November 2012 seven year \$750,000 per year capital override. The funds will be used to provide 21st Century classroom technology, refurbish schools, and purchase transportation equipment and to provide instructional materials.

In November 2017 the District's voters approved \$24 million in general obligation bonds. The funds have been used to construct a gym, add additional classroom buildings, purchase new school buses, upgrade fire alarms and security systems, replace worn tile and carpets, replace furniture and equipment, weatherproof building exteriors, and replace HVAC units. The average age of District school buildings is 18 years.

In November of 2020 voters renewed a 15% M&O (Maintenance and Operations) override generating over \$2.0 million in additional revenues, and a continuation of that M&O Override was approved by voters in November 2020. The M&O Override helps maintain full day Kindergarten, Art, Technology, Physical Education (PE) and various band classes to include Mariachi, Marching and Concert bands, Latin Jazz and Jazz Music instruction. Additionally, the override allows continuation of support services to include a Social Worker, four Counselors, Alternative Education programs and expanded Athletic programs

AWARDS AND ACKNOWLEDGMENTS

Awards. The Association of School Business Officials (ASBO) awarded a Certificate of Excellence in Financial Reporting to the District for its annual comprehensive financial report for the fiscal year ended June 30, 2021. This was the 25th consecutive year that the District has received this prestigious award. In addition, the Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its annual comprehensive financial report for the fiscal year ended June 30, 2021. In order to be awarded these certificates, the District published an easily readable and efficiently organized annual comprehensive financial report. This report satisfied both accounting principles generally accepted in the United States of America and applicable legal requirements.

These certificates are valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the programs' requirements and we are submitting it to ASBO and GFOA to determine its eligibility for the fiscal year ended June 30, 2022 certificates.

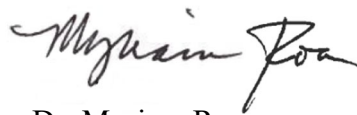

Acknowledgments. The preparation of the annual comprehensive financial report on a timely basis was made possible by the dedicated service of the entire staff of the business and finance department. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report.

In closing, without the leadership and support of the Governing Board of the District, preparation of this report would not have been possible.

Respectfully submitted,

Independent Auditor's Report

Tolleson Elementary School District No. 17

Report on Audit of Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Tolleson Elementary School District No. 17 (District), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Tolleson Elementary School District No. 17, as of June 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of Tolleson Elementary School District No. 17 and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Change in Accounting Principle

As described in Note 1, the District implemented the provisions of the Governmental Accounting Standards Board (GASB) Statement No. 87, *Leases*, for the year ended June 30, 2022, which represents a change in accounting principle. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for one year beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements. In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, budgetary comparison information, net pension liability information as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Combining and Individual Fund Financial Statements and Schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Combining and Individual Fund Financial Statements and Schedules information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the Introductory Section and Statistical Section but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on other work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 28, 2023, on our consideration of Tolleson Elementary School District No. 17's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Tolleson Elementary School District No. 17's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Tolleson Elementary School District No. 17's internal control over financial reporting and compliance.

**TOLLESON ELEMENTARY SCHOOL DISTRICT NO. 17
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
YEAR ENDED JUNE 30, 2022**

As management of the Tolleson Elementary School District No. 17 (District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2022. The management's discussion and analysis is presented as required supplementary information to supplement the basic financial statements. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in the introductory section of this report.

FINANCIAL HIGHLIGHTS

- The District's total net position of governmental activities increased \$6.9 million which represents an 21 percent increase from the prior fiscal year primarily due to an increase in COVID-related federal funding.
- General revenues accounted for \$26.6 million in revenue, or 64 percent of all current fiscal year revenues. Program specific revenue in the form of charges for services and grants and contributions accounted for \$14.9 million or 36 percent of total current fiscal year revenues.
- The District had approximately \$34.5 million in expenses related to governmental activities, a decrease of two percent from the prior fiscal year.
- Among major funds, the General Fund had \$18.9 million current fiscal year revenues, which primarily consisted of state aid and property taxes, and \$17.7 million in expenditures. The General Fund's fund balance increase from \$3.1 million at the prior fiscal year end to \$5.2 million at the end of the current fiscal year was primarily due to an increase in property tax revenues due to an increase in assessed property values.
- Net position for the Internal Service Fund decreased \$39,001 from the prior fiscal year. Operating expenses of \$2.43 million exceeded operating revenues of \$2.39 million at the end of the current fiscal year.

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**TOLLESON ELEMENTARY SCHOOL DISTRICT NO. 17
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
YEAR ENDED JUNE 30, 2022**

OVERVIEW OF FINANCIAL STATEMENTS

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. The accrual basis of accounting is used for the government-wide financial statements.

The statement of net position presents information on all of the District's assets, liabilities, and deferred inflows/outflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

The government-wide financial statements outline functions of the District that are principally supported by property taxes and intergovernmental revenues. The governmental activities of the District include instruction, support services, operation and maintenance of plant services, student transportation services, operation of non-instructional services, and interest on long-term debt.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and proprietary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements use the modified accrual basis of accounting and focus on near-term inflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

**TOLLESON ELEMENTARY SCHOOL DISTRICT NO. 17
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
YEAR ENDED JUNE 30, 2022**

OVERVIEW OF FINANCIAL STATEMENTS

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General, Other Federal Projects, Food Service, Debt Service, and Bond Building Funds, all of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements and schedules.

Proprietary fund. The District maintains one type of proprietary fund. The internal service fund is an accounting device used to accumulate and allocate costs internally among the District's various functions. The District uses its internal service fund to account for its employee benefit fund. Because this service predominantly benefits governmental functions, it has been included within governmental activities in the government-wide financial statements.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following the basic financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's budget process and pension plan. The District adopts an annual expenditure budget for all governmental funds. A schedule of revenues, expenditures and changes in fund balances – budget and actual has been provided for the General Fund and major Special Revenue Funds as required supplementary information. Schedules for the pension plan have been provided as required supplementary information.

YEAR ENDED JUNE 30, 2022**

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows exceeded liabilities and deferred inflows by \$39.6 million at the current fiscal year end.

The largest portion of the District's net position reflects its investment in capital assets (e.g., land and improvements, buildings and improvements, vehicles, furniture and equipment and construction in progress), less any related outstanding debt used to acquire those assets. The District uses these capital assets to provide services to its students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. In addition, a portion of the District's net position represents resources that are subject to external restrictions on how they may be used.

The following table presents a summary of the District's net position for the fiscal years ended June 30, 2022 and June 30, 2021.

	As of June 30, 2022	As of June 30, 2021
Current and other assets	\$ 28,144,181	\$ 22,018,801

At the end of the current fiscal year, the District reported positive balances in two categories of net position while unrestricted net position reported a deficit of \$13.9 million. The deficit is due to the District's proportionate share of the state pension plan's unfunded liability. The same situation held true for the prior fiscal year.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets. The following are significant current year transactions that had an impact on the Statement of Net Position.

- The decrease of \$7.9 million in pension liabilities.
- The addition of \$2.6 million of accumulated depreciation/amortization.

Changes in net position. The District's total revenues for the current fiscal year were \$41.5 million. The total cost of all programs and services was \$34.5 million. The following table presents a summary of the changes in net position for the fiscal years ended June 30, 2022 and June 30, 2021.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The following are significant current year transactions that have had an impact on the change in net position.

- An increase of \$1.2 million in operating grants and contributions due to increased grant funding related to the COVID-19 pandemic.
- An increase of \$1.7 million in unrestricted state aid primarily due to a significant increase in classroom site revenue.

The following table presents the cost of the District's major functional activities. The table also shows each function's net cost (total cost less charges for services generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden that was placed on the State and District's taxpayers by each of these functions.

- The cost of all governmental activities this year was \$34.5 million.
- Federal and State governments and charges for services subsidized certain programs with grants and contributions and other local revenues of \$14.9 million.
- Net cost of governmental activities of \$19.6 million was financed by general revenues, which are made up of primarily property taxes of \$10.8 million and state and county aid of \$15.4 million.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

The financial performance of the District as a whole is reflected in its governmental funds. As the District completed the year, its governmental funds reported a combined fund balance of \$18.6 million, an increase of \$2.3 million.

**TOLLESON ELEMENTARY SCHOOL DISTRICT NO. 17
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
YEAR ENDED JUNE 30, 2022**

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The General Fund comprises 28 percent of the total fund balance. The entire \$5.2 million of the General Fund's fund balance is unassigned.

The General Fund is the principal operating fund of the District. The fund balance increased \$2.1 million in the General Fund to \$5.2 million as of fiscal year end. General Fund revenues increased \$1.3 million, or seven percent due to an increase in property tax revenues due to an increase in assessed property values. General Fund expenditures increased \$83,747, or less than one percent.

The fund balance of the Other Federal Projects Fund decreased \$3.1 million primarily due to the timing of grant reimbursements.

The fund balance of the Food Service Fund increased \$2.3 million primarily due to continued increased federal aid as a result of the COVID-19 pandemic.

The fund balance of the Debt Service Fund increased by \$57,298 primarily due to an increase in property taxes.

The fund balance of the Bond Building Fund decreased by \$1.1 million primarily due to utilization of prior years' bond proceeds.

Proprietary Fund. Unrestricted net position of the Internal Service Fund at the end of the fiscal year amounted to \$729,492. The decrease of \$39,001 from the prior fiscal year was primarily due to operating expenses exceeding operating revenues.

BUDGETARY HIGHLIGHTS

Over the course of the year, the District revised the General Fund annual expenditure budget. The difference between the original budget and the final amended budget was a \$1.2 million increase, or two percent, due to increased grant funding related to the COVID-19 Pandemic. A schedule showing the original and final budget amounts compared to the District's actual financial activity for the General Fund is provided in this report as required supplementary information. The significant variances are summarized as follows:

- The favorable variance of \$1.5 million in instruction expenditures was due to continued increased aid as a result of the pandemic.
- The favorable variance of \$674,799 in operation and maintenance of plant services expenditures was due to continued available pandemic related grants funding.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets. At year end, the District had invested \$87.4 million in capital assets, including school buildings, athletic facilities, buses and other vehicles, computers, and other equipment. This amount represents a net increase prior to depreciation of \$327,193 primarily due to building improvements and vehicles, furniture and equipment. Total depreciation/amortization expense for the year was \$2.7 million.

The following schedule presents a summary of capital asset balances for the fiscal years ended June 30, 2022 and June 30, 2021.

	As of June 30, 2022	As of June 30, 2021
Capital assets - non-depreciable	\$ 8,153,434	\$ 7,890,616
Capital assets - depreciable, net	53,038,595	53,959,968
Total	\$ 61,192,029	\$ 61,850,584

The estimated cost to complete current construction projects is \$1.4 million.

Additional information on the District’s capital assets can be found in Note 6.

Debt Administration. At year-end, the District had \$25.4 million in long-term debt outstanding, \$2.5 million due within one year. Long-term debt decreased by \$2.5 million due to the payment of debt obligations.

The District’s general obligation bonds are subject to two limits; the Constitutional debt limit (total debt limit) on all general obligation bonds (up to 15 percent of the total net full cash assessed valuation) and the statutory debt limit on Class B bonds (the greater of 10 percent of the net full cash assessed valuation or \$1,500 per student). The current total debt limitation for the District is \$56.4 million and the Class B debt limit is \$37.6 million which are more than the District’s total outstanding general obligation and Class B debt respectively.

Additional information on the District’s long-term debt can be found in Notes 8 through 10.

ECONOMIC FACTORS AND NEXT YEAR’S BUDGET AND RATES

Many factors were considered by the District’s administration during the process of developing the fiscal year 2022-23 budget. Among them:

- Fiscal year 2022-23 budget balance carry forward of \$1.3 million.
- District student population (estimated 2,478).

**TOLLESON ELEMENTARY SCHOOL DISTRICT NO. 17
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
YEAR ENDED JUNE 30, 2022**

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

Also considered in the development of the budget is the local economy and inflation of the surrounding area.

Budgeted expenditures in the General Fund increased seven percent to \$20.7 million in fiscal year 2022-23 due to an increase in per pupil funding. State aid and property taxes are expected to be the primary funding sources. No new programs were added to the 2022-23 budget.

IN FUND BALANCES - GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
YEAR ENDED JUNE 30, 2022**

Changes in fund balances - total governmental funds **\$ 2,275,191**

Amounts reported for *governmental activities* in the Statement of Activities are different because:

Governmental funds report the portion of capital outlay for capitalized assets as expenditures. However, in the Statement of Activities, the costs of those assets are allocated over their estimated useful lives and reported as depreciation expense.

Expenditures for capitalized assets	\$ 531,878	
Less current year depreciation/amortization	<u>(2,594,178)</u>	(2,062,300)

Some revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.

Property taxes	(38,601)	
Intergovernmental	<u>3,376,512</u>	3,337,911

Repayments of long-term debt principal are expenditures in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position.

Lease principal retirement	711,052	
Bond principal retirement	<u>1,850,000</u>	2,561,052

Governmental funds report pension contributions as expenditures. However, they are reported as deferred outflows of resources in the Statement of Net Position. The change in the net pension liability, adjusted for deferred items, is reported as pension expense in the Statement of Activities.

Current year pension contributions	1,914,303	
Pension expense	<u>(1,125,127)</u>	789,176

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

Inventory	(81,159)	
Loss on disposal of assets	(32,581)	
Amortization of deferred bond items	145,996	
Compensated absences	<u>24,864</u>	57,120

The Internal Service Fund is used by management to charge the cost of insurance to the individual funds. The changes in net position of the Internal Service Fund is reported with governmental activities in the Statement of Activities.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Tolleson Elementary School District No. 17 (District) have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

During the year ended June 30, 2022, the District implemented the provisions of GASB Statement No. 87, *Leases*. This Statement increases the usefulness of the financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases. The statement establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. The beginning balance of capital assets was restated by \$1,436,326 due to the implementation of the standard.

The more significant of the District's accounting policies are described below.

A. Reporting Entity

The Governing Board is organized under Section 15-321 of the Arizona Revised Statutes (A.R.S.). Management of the District is independent of other state or local governments. The County Treasurer collects taxes for the District, but exercises no control over its expenditures/expenses.

The membership of the Governing Board consists of five members elected by the public. Under existing statutes, the Governing Board's duties and powers include, but are not limited to, the acquisition, maintenance and disposition of school property; the development and adoption of a school program; and the establishment, organization and operation of schools.

The Board also has broad financial responsibilities, including the approval of the annual budget, and the establishment of a system of accounting and budgetary controls.

TOLLESON ELEMENTARY SCHOOL DISTRICT NO. 17
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial reporting entity consists of a primary government and its component units. A component unit is a legally separate entity that must be included in the reporting entity in conformity with generally accepted accounting principles. The District is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Furthermore, there are no component units combined with the District for financial statement presentation purposes, and the District is not included in any other governmental reporting entity. Consequently, the District's financial statements include only the funds of those organizational entities for which its elected governing board is financially accountable. The District's major operations include education, student transportation, construction and maintenance of District facilities, and food services.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) present financial information about the District as a whole. The reported information includes all of the nonfiduciary activities of the District. For the most part, the effect of internal activity has been removed from these statements. These statements are to distinguish between the governmental and business-type activities of the District.

Governmental activities normally are supported by taxes and intergovernmental revenues, and are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The District does not have any business-type activities or fiduciary activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes, unrestricted state, county and federal aid, and other items not included among program revenues are reported instead as general revenues.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Government-Wide Financial Statements – The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met. As a general rule, the effect of internal activity has been eliminated from the government-wide financial statements; however, the effects of interfund services provided and used between functions are reported as expenses and program revenues at amounts approximating their external exchange value.

Fund Financial Statements – Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. As permitted by generally accepted accounting principles the District applies the “early recognition” option for debt service payments. Property tax resources are provided in the Debt Service Fund during the current year for the payment of debt service principal and interest due early in the following year (less than one month). Therefore, the expenditures and related liabilities have been recognized in the current period.

Property taxes, federal, state and county aid, and investment income associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. Food services and miscellaneous revenues are not susceptible to accrual because generally they are not measurable until received in cash. Grants and similar awards are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met. Unearned revenues arise when resources are received by the District before it has legal claim to them, as when grant monies are received prior to meeting all eligibility requirements imposed by the provider.

Delinquent property taxes and other receivables that will not be collected within the available period have been reported as unavailable revenues on the governmental fund financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column.

The District reports the following major governmental funds:

General Fund – The General Fund is the District’s primary operating fund. It accounts for all resources used to finance District maintenance and operation except those required to be accounted for in other funds. The General Fund includes the District’s Maintenance and Operation Fund as well as certain activities budgeted in separate funds in accordance with A.R.S. These funds are maintained as separate funds for budgetary purposes but do not meet the criteria for separate reporting in the financial statements.

Other Federal Projects Fund – The Other Federal Projects Fund accounts for financial assistance received for other supplemental federal projects.

Food Service Fund – The Food Service Fund accounts for the financial activity of school activities that have as their purpose the preparation and serving of regular and incidental meals and snacks in connection with school functions.

Debt Service Fund – The Debt Service Fund accounts for the accumulation of resources for, and the payment of, long-term debt principal, interest and related costs.

Bond Building Fund – The Bond Building Fund accounts for proceeds from District bond issues that are expended on the acquisition or lease of sites; construction or renovation of school buildings; supplying school buildings with furniture, equipment, and technology; improving school grounds; or purchasing pupil transportation vehicles.

Additionally, the District reports the following fund type:

Proprietary Fund – The Proprietary Fund is an internal service fund that accounts for activities related to the District’s insurance program.

The Proprietary Fund financial statements are reported using the economic resources measurement focus and accrual basis of accounting and are presented in a single column.

TOLLESON ELEMENTARY SCHOOL DISTRICT NO. 17
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's internal service funds are charges for health and welfare benefits and charges to District departments for goods and services. Operating expenses for internal service funds include the cost of goods and services and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

D. Cash and Investments

For purposes of the Statement of Cash Flows, the District considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Cash and cash equivalents at year end were cash and investments held by the County Treasurer.

A.R.S. require the District to deposit all cash with the County Treasurer, except as discussed below. Cash with the County Treasurer is pooled for investment purposes, except for cash of the Debt Service and Bond Building Funds that may be invested separately. Interest earned from investments purchased with pooled monies is allocated to each of the District's funds based on their average balances. As required by statute, interest earnings of the Bond Building Fund are recorded initially in that fund, but then transferred to the Debt Service Fund. All investments are stated at fair value.

Statute authorizes the District to separately invest monies of the Bond Building and Debt Service Funds in the State Treasurer's investment pools; obligations issued and guaranteed by the United States or any of its agencies or instrumentalities; specified state and local government bonds and notes; and interest bearing savings accounts or certificates of deposit.

Statute authorizes the District to deposit monies of the Auxiliary Operations and Student Activities Funds in bank accounts. Monies in these funds may also be invested. In addition, statute authorizes the District to maintain various bank accounts such as clearing accounts to temporarily deposit receipts before they are transmitted to the County Treasurer; revolving accounts to pay minor disbursements; and withholdings accounts for taxes and employee insurance programs. Some of these bank accounts may be interest bearing.

TOLLESON ELEMENTARY SCHOOL DISTRICT NO. 17
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Statute does not include any requirements for credit risk, concentration of credit risk, interest rate risk, or foreign currency risk. Arizona statute requires a pooled collateral program for public deposits and a Statewide Collateral Pool Administrator (Administrator) in the State Treasurer's Office. The purpose of the pooled collateral program is to ensure that governmental entities' public deposits placed in participating depositories are secured with collateral of 102 percent of the public deposits, less any applicable federal depository insurance. An eligible depository may not retain or accept any public deposit unless it has deposited the required collateral with a qualified escrow agent or the Administrator. The Administrator manages the pooled collateral program, including reporting on each depository's compliance with the program.

E. Investment Income

Investment income is composed of interest, dividends and net changes in the fair value of applicable investments. Investment income is included in other local revenue in the fund financial statements.

F. Receivables and Payables

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Interfund balances between governmental funds are eliminated on the Statement of Net Position.

All receivables, including property taxes receivable, are shown net of an allowance for uncollectibles.

G. Property Tax Calendar

The County Treasurer is responsible for collecting property taxes for all governmental entities within the county. The county levies real property taxes on or before the third Monday in August that become due and payable in two equal installments. The first installment is due on the first day of October and becomes delinquent after the first business day of November. The second installment is due on the first day of March of the next year and becomes delinquent after the first business day of May.

Pursuant to A.R.S., a lien against assessed real and personal property attaches on the first day of January preceding assessment and levy; however according to case law, an enforceable legal claim to the asset does not arise.

TOLLESON ELEMENTARY SCHOOL DISTRICT NO. 17
NOTES TO FINANCIAL STATEMENTS

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

H. Inventory

All inventories are valued at cost using the average cost method. Inventories consist of expendable supplies held for consumption. Inventories are recorded as expenses when consumed on the government-wide financial statements and as expenditures when purchased on the fund financial statements.

I. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. Prepaid items are recorded as expenses when consumed in the government-wide financial statements and as expenditures when purchased in the fund financial statements.

J. Capital Assets

Capital assets, which include land and improvements; buildings and improvements; vehicles, furniture, and equipment; construction in progress; and intangible right-to-use assets are reported in the government-wide financial statements.

Capital assets are defined by the District as assets with an initial, individual cost in excess of \$5,000 and an estimated useful life of more than one year. Capital assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized.

Capital assets are depreciated using the straight-line method over the estimated useful life of the asset. Intangible right-to use assets are amortized over the shorter of the lease term or the underlying asset's useful life. The estimated useful lives and amortization periods are as follows:

Land improvements	5 – 60 years
Buildings and improvements	5 – 100 years
Vehicles, furniture and equipment	5 – 25 years
Intangible right-to-use assets	3 – 4 years

TOLLESON ELEMENTARY SCHOOL DISTRICT NO. 17
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

K. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position may report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position may report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

L. Compensated Absences

The District's employee vacation and sick leave policies generally provide for granting vacation and sick leave with pay in varying amounts. Only benefits considered vested are recognized in the financial statements. The liability for vacation and sick leave is reported in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee leave, resignations and retirements. Generally, resources from the General Fund are used to pay for compensated absences.

M. Leases

As lessee, the District recognizes lease liabilities with an initial, individual value of \$50,000 or more. The District uses the interest rate implicit in the leases.

N. Pensions

For purposes of measuring the net pension liability, related deferred outflows of resources and deferred inflows of resources, and pension expense, information about the pension plan's fiduciary net position and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

TOLLESON ELEMENTARY SCHOOL DISTRICT NO. 17
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

O. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities on the statement of net position. Bond premiums and discounts are amortized over the life of the bonds using the straight-line method. Deferred amounts on refunding result from the difference between the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

P. Interfund Activity

Flows of cash from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers between governmental funds are eliminated in the Statement of Activities. Interfund transfers in the fund financial statements are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds.

Q. Net Position Flow Assumption

In the government-wide and proprietary fund financial statements the District applies restricted resources first when outlays are incurred for purposes for which either restricted or unrestricted amounts are available.

R. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

TOLLESON ELEMENTARY SCHOOL DISTRICT NO. 17
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE 2 – FUND BALANCE CLASSIFICATIONS

Fund balances of the governmental funds are reported separately within classifications based on a hierarchy of the constraints placed on the use of those resources. The classifications are based on the relative strength of the constraints that control how the specific amounts can be spent. The classifications are nonspendable, restricted, and unrestricted, which includes committed, assigned, and unassigned fund balance classifications.

Nonspendable. The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact.

Restricted. Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions or enabling legislation.

Committed. The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by formal action of the Governing Board. Those committed amounts cannot be used for any other purpose unless the Governing Board removes or changes the specified use by taking the same type of action it employed to previously commit those amounts. The District does not have a formal policy or procedures for the utilization of committed fund balance, accordingly, no committed fund balance amounts are reported.

Assigned. Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by the Governing Board or the Executive Director of Business Services, who has been delegated that authority by formal Governing Board action. No assigned fund balance amounts are reported.

Unassigned. Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District applies restricted resources first when outlays are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Other State Projects	130,785

TOLLESON ELEMENTARY SCHOOL DISTRICT NO. 17
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE 3 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

The deficits arose because of pending grant reimbursements. Additional revenues received in fiscal year 2022-23 are expected to eliminate the deficits.

Excess Expenditures Over Budget – At year end, the District had expenditures in funds that exceeded the budgets, however this does not constitute a violation of any legal provisions.

NOTE 4 – CASH AND INVESTMENTS

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of bank failure the District’s deposits may not be returned to the District. The District does not have a deposit policy for custodial credit risk. At year end, the carrying amount of the District’s deposits was \$39,613 and the bank balance was \$96,656. At year end, all of the District’s deposits were covered by federal depository insurance.

Fair Value Measurements. The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset.

- Level 1 inputs are quoted prices in active markets for identical assets
- Level 2 inputs are significant other observable inputs
- Level 3 inputs are significant unobservable inputs

The County Treasurer’s pool is an external investment pool with no regulatory oversight. The pool is not required to register (and is not registered) with the Securities and Exchange Commission. The fair value of each participant’s position in the County Treasurer investment pool approximates the value of the participant’s shares in the pool and the participants’ shares are not identified with specific investments. Participants in the pool are not required to categorize the value of shares in accordance with the fair value hierarchy.

At year end, the District’s investments consisted of the following:

	<u>Average Maturities</u>	<u>Fair Value</u>
County Treasurer’s investment pool	623 days	\$ 19,573,902

Interest Rate Risk. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

TOLLESON ELEMENTARY SCHOOL DISTRICT NO. 17
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE 4 – CASH AND INVESTMENTS

Credit Risk. The District has no investment policy that would further limit its investment choices. As of year end, the District’s investment in the County Treasurer’s investment pool did not receive a credit quality rating from a national rating agency.

Custodial Credit Risk – Investments. The District’s investment in the County Treasurer’s investment pool represents a proportionate interest in the pool’s portfolio; however, the District’s portion is not identified with specific investments and is not subject to custodial credit risk.

NOTE 5 – RECEIVABLES

Receivable balances, net of allowance for uncollectibles, have been disaggregated by type and presented separately in the financial statements with the exception of due from governmental entities. Due from governmental entities, net of allowance for uncollectibles, as of year end for the District’s individual major funds and non-major governmental funds in the aggregate, were as follows:

	<u>General Fund</u>	<u>Other Federal</u>	<u>Food Service</u>	<u>Non-Major Governmental Funds</u>
Due from other governmental entities:

NOTE 7 – SHORT TERM DEBT – REVOLVING LINE OF CREDIT

The District has a \$2.0 million revolving line of credit to provide cash flow during the year to mitigate the impact of timing differences of expenditures and the receipt of state aid and property tax revenues. At year end, the District had \$2.0 million in unused line of credit.

NOTE 8 – LEASES PAYABLE

The District has acquired technology equipment under the provisions of contracts classified as leases. The related obligations under the lease agreements have been recorded at the present value of their future minimum lease payments as of the inception date. Revenues from the Bond Building Fund are used to pay the lease obligations. Amortization of right-to-use assets recorded under leases is included with depreciation expense.

The net present value and future minimum lease payments at year end were as follows:

Total Due from Other Funds	<u>\$ 2,925,679</u>	<u>\$ 1,246,430</u>	<u>\$ 4,172,109</u>

At year end, several funds had negative cash balances in the Treasurer's pooled cash accounts. Negative cash on deposit with the County Treasurer was reduced by interfund borrowing with other funds. All interfund balances are expected to be paid within one year.

Interfund transfers:

	<u>Transfers in</u>		
	<u>General Fund</u>	<u>Debt Service Fund</u>	<u>Total</u>
<u>Transfers out</u>			
Bond Building Fund	\$	\$ 65,331	\$ 65,331

NOTE 12 – CONTINGENT LIABILITIES

Compliance – Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures/expenses that may be disallowed by the grantor cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

NOTE 13 – RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

The District was unable to obtain general property and liability insurance at a cost it considered to be economically justifiable. Therefore, the District joined the Arizona School Risk Retention Trust, Inc. (ASRRT). ASRRT is a public entity risk pool currently operating as a common risk management and insurance program for school districts and community colleges in the State. The District pays an annual premium to ASRRT for its general insurance coverage. The agreement provides that ASRRT will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of specified amounts.

The District joined the Arizona School Alliance for Workers' Compensation, Inc. (Alliance) together with other school districts in the state for risks of loss related to workers' compensation claims. The Alliance is a public entity risk pool currently operating as a common risk management and insurance program for school districts in the State. The District pays quarterly premiums to the Alliance for its employee workers' compensation coverage. The agreement provides that the Alliance will be self-sustaining through members' premiums and will reinsure through commercial companies for claims in excess of specified amounts for each insured event.

The District's employees have health and accident insurance coverage with the Valley Schools Employee Benefit Trust (VSEBT). VSEBT is a public entity risk pool currently operating as a common risk management and insurance program for school districts in the State. The District pays a monthly premium to VSEBT for employees' health and accident insurance coverage. The agreement provides that VSEBT will be self-sustaining through members' premiums and will reinsure through commercial companies for claims in excess of specified amounts for each insured event.

Plan Description. District employees participate in the Arizona State Retirement System (ASRS). The ASRS administers a cost-sharing multiple-employer defined benefit pension plan, a cost-sharing multiple-employer defined benefit health insurance premium benefit (OPEB) plan, and a cost-sharing multiple-employer defined benefit long-term disability (OPEB) plan. The Arizona State Retirement System Board governs the ASRS according to the provisions of A.R.S. Title 38, Chapter 5, Articles 2 and 2.1. ASRS is a component unit of the State of Arizona. The ASRS issues a publicly available financial report that includes its financial statements and required supplementary information. The report is available on the ASRS website at www.azasrs.gov.

The ASRS OPEB plans are not further disclosed because of their relative insignificance to the District’s financial statements.

Benefits Provided. The ASRS provides retirement, health insurance premium supplement, long-term disability, and survivor benefits. State statute establishes benefit terms. Retirement benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

	Retirement Initial Membership Date:	
	Before July 1, 2011	On or After July 1, 2011
Years of service and age required to receive benefit	Sum of years and age equals 80 10 years, age 62 5 years, age 50* Any years, age 65	30 years, age 55 25 years, age 60 10 years, age 62 5 years, age 50* Any years, age 65
Final average salary is based on	Highest 36 months of last 120 months	Highest 60 months of last 120 months
Benefit percent per year of service	2.1% to 2.3%	2.1% to 2.3%
	*With actuarially reduced benefits	

Retirement benefits for members who joined the ASRS prior to September 13, 2013, are subject to automatic cost-of-living adjustments based on excess investment earnings. Members with a membership date on or after September 13, 2013, are not eligible for cost-of-living adjustments. Survivor benefits are payable upon a member’s death. For retired members, the survivor benefit is determined by the retirement benefit option chosen. For all other members, the beneficiary is entitled to the member’s account balance that includes the member’s contributions and employer’s contributions, plus interest earned.

NOTE 14 – PENSIONS

Contributions. In accordance with state statutes, annual actuarial valuations determine active member and employer contribution requirements. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. For the current fiscal year, active ASRS members were required by statute to contribute at the actuarially determined rate of 12.41 percent (12.22 percent for retirement and 0.19 percent for long-term disability) of the members’ annual covered payroll, and the District was required by statute to contribute at the actuarially determined rate of 12.41 percent (12.01 percent for retirement, 0.21 percent for health insurance premium benefit, and 0.19 percent for long-term disability) of the active members’ annual covered payroll. The District’s contributions to the pension plan for the year ended June 30, 2022 were \$1,914,303.

Employers are also required to pay an Alternate Contribution Rate (ACR), for retired members who return to work in positions that would typically be filled by an employee who contributes to ASRS. The District was required by statute to contribute at the actuarially determined rate of 10.22 percent (10.13 for retirement and 0.09 percent for long-term disability). ACR contributions are included in employer contributions presented above.

The District’s pension plan contributions are paid by the same funds as the employee’s salary, with the largest component coming from the General Fund.

Pension Liability. The net pension liability was measured as of June 30, 2021. The total liability used to calculate the net liability was determined using update procedures to roll forward the total liability from an actuarial valuation as of June 30, 2020, to the measurement date of June 30, 2021. The District’s proportion of the net liability was based on the District’s actual contributions to the applicable plan relative to the total of all participating employers’ contributions to the plan for the year ended June 30, 2021. The total liabilities as of June 30, 2021, reflect changes in actuarial assumptions based on the results of an actuarial experience study for the 5-year period ended June 30, 2020, including decreasing the discount rate from 7.5 percent to 7.0 percent and changing the projected salary increases from 2.7-7.2 percent to 2.9-8.4 percent.

At June 30, 2022, the District reported the following amounts for its proportionate share of the pension plan net liability. In addition, at June 30, 2021, the District’s percentage proportion for the plan and the related change from its proportion measured as of June 30, 2020 was:

<u>Net Liability</u>	<u>District % Proportion</u>	<u>Increase (Decrease)</u>

NOTE 14 – PENSIONS

Pension Expense and Deferred Outflows/Inflows of Resources. The District has deferred outflows and inflows of resources related to the net pension liability. Certain changes in the net pension liability are recognized as pension expense over a period of time rather than the year of occurrence. The District’s pension expense for the year ended June 30, 2022 was \$1,125,127.

The District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 283,225	\$
Changes of assumptions or other inputs	2,418,249	
Net difference between projected and actual earnings on pension investments		5,886,586
Changes in proportion and differences between contributions and proportionate share of contributions		1,180,869
Contributions subsequent to the measurement date	1,914,303	
Total	\$ 4,615,777	\$ 7,067,455

The amounts of deferred outflows of resources resulting from contributions subsequent to the measurement date as reported in the table above will be recognized as an adjustment of the net pension liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30:		
2023	\$	(548,697)
2024		(491,031)
2025		(1,297,691)

NOTE 14 – PENSIONS

Actuarial Assumptions. The significant actuarial assumptions used to measure the total pension liability are as follows:

Actuarial valuation date	June 30, 2020
Actuarial roll forward date	June 30, 2021
Actuarial cost method	Entry age normal
Investment rate of return	7.0%
Inflation	2.3%
Projected salary increases	2.9-8.4%
Permanent base increases	Included
Mortality rates	2017 SRA Scale U-MP

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the five-year period ended June 30, 2020. The purpose of the experience study was to review actual experience in relation to the actuarial assumptions in effect. The ASRS Board adopted the experience study recommended changes which were applied to the June 30, 2020, actuarial valuation.

The long-term expected rate of return on ASRS plan investments was determined to be 7.0 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, excluding any expected inflation.

The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Geometric Real Rate of Return
Equity	50%	4.90%
Credit	20	5.20
Interest rate sensitive bonds	10	0.70
Real estate	20	5.70
Total	100%

NOTE 14 – PENSIONS

Discount Rate. The discount rate used to measure the total pension liability was 7.0 percent. The discount rate was lowered in the roll forward for the year June 30, 2021 from 7.5 percent, which was used for the actuarial assumptions at the valuation date. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the ASRS Board’s funding policy, which establishes the contractually required rate under Arizona statute. Based on those assumptions, the plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the District’s proportionate share of the net pension liability calculated using the discount rate of 7.0 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	1% Decrease	Current Discount Rate	1% Increase
Rate	6.0%	7.0%	8.0%
Net liability	\$ 29,223,733	\$ 18,579,332	\$ 9,704,847

Pension Plan Fiduciary Net Position. Detailed information about the pension plan’s fiduciary net position is available in the separately issued ASRS financial report. The report is available on the ASRS website at www.azasrs.gov.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
JUNE 30, 2022

NOTE 1 – BUDGETARY BASIS OF ACCOUNTING

The District budget is prepared on a basis consistent with accounting principles generally accepted in the United States of America, except for the following item.

- Certain activities reported in the General Fund are budgeted in separate funds in accordance with Arizona Revised Statutes.
- Prepaid items are budgeted in the year prepaid.

The following schedule reconciles expenditures and fund balances at the end of year:

	General Fund		Other Federal
	Total	Fund	Projects
	Expenditures	Balances End of Year	Total Expenditures
Statement of Revenues, Expenditures and Changes in Fund Balances – Governmental Funds	\$ 17,700,919	\$ 5,249,546	\$ 4,142,823
Activity budgeted as special revenue funds	(872,071)	(1,605,244)	
Current-year prepaid items	644,125		257,311
Prior year prepaid items	(221,745)		
Schedule of Revenues, Expenditures and Changes in Fund Balances – Budget and Actual – General Fund	<u>\$ 17,251,228</u>	<u>\$ 3,644,302</u>	<u>\$ 4,400,134</u>

NOTE 2 – PENSION PLAN SCHEDULES

Actuarial Assumptions for Valuations Performed. The information presented in the required supplementary schedules was determined as part of the actuarial valuations at the dates indicated, which is the most recent actuarial valuation. The actuarial assumptions used are disclosed in the notes to the financial statements.

Factors that Affect Trends. The actuarial assumptions used in the June 30, 2020, valuation were based on the results of an actuarial experience study for the five-year period ended June 30, 2020. The purpose of the experience study was to review actual experience in relation to the actuarial assumptions in effect. The ASRS Board adopted the experience study recommended changes which were applied to the June 30, 2020, actuarial valuation. The total liabilities as of June 30, 2021, reflect changes in actuarial assumptions based on the results of an actuarial experience, including decreasing the discount rate from 7.5 percent to 7.0 percent and changing the projected salary increases from 2.7-7.2 percent to 2.9-8.4 percent.

STATISTICAL SECTION

The statistical section presents financial statement trends as well as detailed financial and operational information not available elsewhere in the report. The statistical section is intended to enhance the reader's understanding of the information presented in the financial statements, notes to the financial statements, and other supplementary information presented in this report. The statistical section is comprised of the five categories of statistical information presented below.

Financial Trends

These schedules contain information on financial trends to help the reader understand how the District's financial position and financial activities have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the factors affecting the District's ability to generate revenue.

Debt Capacity

These schedules present information to help the reader evaluate the District's current levels of outstanding debt as well as assess the District's ability to make debt payments and/or issue additional debt in the future.

Demographic and Economic Information

These schedules present various demographic and economic indicators to help the reader understand the environment in which the District's financial activities take place and to help make comparisons with other school districts.

Operating Information

These schedules contain information about the District's operations and various resources to help the reader draw conclusions as to how the District's financial information relates to the services provided by the District.

Note: For locally assessed property (i.e., excluding mines, utilities, etc.) Proposition 117, approved by voters in 2012, amended the Arizona Constitution to require that all property taxes after fiscal year 2014-15 be based upon property values limited to 5 percent in annual growth. The aggregate assessed value of all taxable properties within a taxing jurisdiction (i.e., after applying assessment ratios based on the use of a property), including property values with a growth limit, is currently referred to as net limited assessed value and formerly as primary assessed value. In accordance with Proposition 117, this value is used for all taxing purposes beginning fiscal year 2015-16. Aggregate assessed value without a growth limit is currently referred to as net full cash assessed value and formerly as secondary assessed value. This remains the value utilized for determining debt capacity limits.

- Notes:** 1) The District's general obligation bonds are subject to two limits: the Constitutional debt limit (total debt limit) on all general obligation bonds outstanding and the statutory debt limit on Class B bonds outstanding. The calculations of the debt margins are presented in detail for the current fiscal year only.
- 2) Prior to FY17, net bond premium was restricted by amount and not subject to the statutory debt limit. Beginning with FY17, any additional net premium used for capital projects, bond counsel, printing and preparation of offering documents, a financial advisor, paying agent costs or to pay down debt is counted against both debt limits with the exception of amounts of premium deposited into the Debt Service Fund or a refunding escrow to pay interest payments.

Compliance and Other Matters Based on an Audit of
Financial Statements Performed in Accordance with
*Government Auditing Standards***

Independent Auditor's Report

Governing Board
Tolleson Elementary School District No. 17

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Tolleson Elementary School District No. 17, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise Tolleson Elementary School District No. 17's basic financial statements, and have issued our report thereon dated February 28, 2023. Our report included an emphasis of matter paragraph as to comparability because of the implementation of Governmental Accounting Standards Board Statement No. 87, *Leases*.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Tolleson Elementary School District No. 17's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Tolleson Elementary School District No. 17's internal control. Accordingly, we do not express an opinion on the effectiveness of Tolleson Elementary School District No. 17's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify a certain deficiency in internal control, described in the accompanying schedule of findings and questioned costs as item FS-2022-001 that we consider to be a significant deficiency.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Tolleson Elementary School District No. 17's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Tolleson Elementary School District No. 17's Response to Finding

Government Auditing Standards requires the auditor to perform limited procedures on the Tolleson Elementary School District No. 17's response to the finding identified in our audit and described in the accompanying schedule of findings and questioned costs. Tolleson Elementary School District No. 17's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Report on Compliance for Each Major Federal Program;
Report on Internal Control Over Compliance; and
Report on Schedule of Expenditures of Federal Awards
Required by the Uniform Guidance**

Independent Auditor's Report

Governing Board
Tolleson Elementary School District No. 17

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Tolleson Elementary School District No. 17's compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of Tolleson Elementary School District No. 17's major federal programs for the year ended June 30, 2022. Tolleson Elementary School District No. 17's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Tolleson Elementary School District No. 17 complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Tolleson Elementary School District No. 17 and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Tolleson Elementary School District No. 17's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to Tolleson Elementary School District No. 17's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Tolleson Elementary School District No. 17's compliance based on our audit.

Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate it would influence the judgment made by a reasonable user of the report on compliance about Tolleson Elementary School District No. 17's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Tolleson Elementary School District No. 17's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Tolleson Elementary School District No. 17's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Tolleson Elementary School District No. 17's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance, which is required to be reported in accordance with Uniform Guidance and which is described in the accompanying schedule of findings and questioned costs as item 2022-001. Our opinion on each major federal program is not modified with respect to these matters.

Government Auditing Standards requires the auditor to perform limited procedures on Tolleson Elementary School District No. 17's response to the noncompliance finding identified in our audit described in the accompanying schedule of findings and questioned costs. Tolleson Elementary School District No. 17's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Tolleson Elementary School District No. 17 as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise Tolleson Elementary School District No. 17's basic financial statements. We issued our report thereon dated February 28, 2023, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements.

The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
Fiscal Period 7/1/2021 - 6/30/2022

Significant Accounting Policies Used in Preparing the SEFA

The accompanying Schedule of Expenditures of Federal Awards (Schedule) includes the federal grant activity of Tolleson Elementary School District No. 17 under programs of the federal government for the year ended June 30, 2022. The information in the Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position or cash flows of the District. Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Any negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Pass-through entity identifying numbers are presented where available.

10% De Minimis Cost Rate

The auditee did not use the de minimis cost rate.

Assistance Listing Numbers

The program titles and Assistance Listing numbers were obtained from the federal or pass-through grantor or through sam.gov. If the three-digit Assistance Listing extension is unknown, there is a U followed by a two-digit number in the Assistance Listing extension to identify one or more Federal award lines from that program. The first Federal program with an unknown three-digit extension is indicated with U01 for all award lines associated with that program, the second is U02, etc.

YEAR ENDED JUNE 30, 2022

FINDINGS RELATED TO FINANCIAL STATEMENTS REPORTED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Finding Number: FS-2022-001

Repeat Finding: No

Type of Finding: Significant Deficiency

Description: Internal Control – Journal Entries

CRITERIA

District management is responsible for establishing and maintaining internal controls over journal entries to ensure they are supported and appropriately reviewed for propriety.

CONDITION

The District misstated debt service expenditures and misallocated adjacent ways property tax revenues.

CAUSE

The District did not adequately review transactions posted to the general ledger, which was likely due to turnover of key finance positions.

EFFECT

If errors go undetected it could result in a material misstatement to the District's financial statements.

CONTEXT

The District misclassified the July 2022 bond principal and interest payment of \$2.3 million as bond proceeds and interest revenue, respectively. Additionally, the District did not properly allocate property tax receipts, resulting in an understatement to adjacent ways property tax revenue and an overstatement of unrestricted capital outlay property tax revenue in the amount of \$195,596.

RECOMMENDATION

The District should ensure journal entries are properly supported and reviewed including those posted on behalf of the District. Additionally, the District should periodically compare budgets to actuals to detect misstatements or misclassifications.

VIEWS OF RESPONSIBLE OFFICIALS

Pass-Through Agency: Arizona Department of Education

Questioned Costs: N/A

Type of Finding: Noncompliance

Compliance Requirement: Other

CRITERIA

The Uniform Guidance requires any entity subject to the Single Audit Act to contract for an annual audit and submit the report within nine months after fiscal year-end.

CONDITION

The District did not provide audit information for fiscal year 2021-22 in a timely manner to allow sufficient time for the audit to be completed within nine months after fiscal year-end.

CAUSE

The District has experienced turnover in key finance positions during the fiscal year.

EFFECT

The District was not in compliance with federal regulations and guidelines.

CONTEXT

The District did not prepare its ESSER III application and receive approval from the Arizona Department of Education in a timely manner. Additionally, management was delayed in providing information regarding the allowability of costs charged to the grant.

RECOMMENDATION

The District should ensure audit information is available in a timely manner to ensure reporting deadlines are met.

CORRECTIVE ACTION PLAN
YEAR ENDED JUNE 30, 2022

Findings Related to Financial Statements Reported in Accordance with *Government Auditing Standards*

Finding Number: FS-2022-001

Contact Person: Dr. Myriam Roa, Executive Director of Business Services (through June 30, 2023) Anita Percell, Executive Director of Business Services (as of July 1, 2023)

Anticipated Completion Date: July 31, 2023

Planned Corrective Action: The debt service payments for FY22 were corrected by journal entry #811 done on November 16, 2022. This has been corrected and is reported on the Annual Financial Report Revision approved by the Governing Board at the February 1, 2023 meeting. The interest payments were corrected by journal entry #336 corrections posted on January 3, 2023 in FY23. A journal entry will be needed in July of 2023 after the principal and interest payments are posted by the county treasurer. Additionally, the property taxes were allocated and posted by the Maricopa County Superintendent Support team for part of fiscal year 2022. The county office stopped the allocations for school districts in November of 2022 for fiscal year 2023. The District will need to make journal entries to adjust the adjacent ways and capital fund accounts appropriately at year end. The allocations will be reviewed at year end by the Executive Director of Business Services and the Maricopa County Superintendent Support team ensure that it is done appropriately and make any adjustments needed.

Planned Corrective Action: The District has prepared and submitted the ESSER III application to the Arizona Department of Education in May of 2023 and will make any revisions if necessary, in a timely manner. The District has hired new key finance positions with grants management experience to complete all future revisions and submissions.

Tolleson Elementary School District
Uniform System of Financial Records Compliance Questionnaire
For Fiscal Year Ended June 30, 2022

Instructions

Arizona Revised Statutes (A.R.S.) §15-271 requires the Arizona Auditor General to inform any school district failing to establish and maintain the requirements prescribed by the *Uniform System of Financial Records for Arizona School Districts* (USFR) that it has 90 days to correct the cited deficiencies. The USFR prescribes the minimum internal control policies and procedures to be used by Arizona school districts for accounting, financial reporting, budgeting, attendance reporting, and various other compliance requirements. To help the Arizona Auditor General determine whether a district has attained an acceptable degree of compliance with USFR requirements, the audit firm must complete this USFR Compliance Questionnaire (CQ).

A.R.S. §§15-213(F) and 15-914(G) require districts to have a systematic review of their purchasing practices and average daily membership (ADM), respectively, performed in conjunction with their annual or biennial financial audit to determine whether the district complied with the applicable State of Arizona procurement and student attendance laws and rules. Auditor completion of the Procurement and Student attendance reporting CQ sections constitutes the required systematic reviews.

Audit firms must gain an understanding of the district's internal controls and obtain and document sufficient, appropriate evidence annually to support each CQ response. These instructions, the CQ questions, and the required review procedures constitute the minimum audit standards for completing the CQ. Required review procedures are included in the "tooltip" next to applicable questions in the web-based auditor submission CQ. The Arizona Auditor General may reject CQs that are not prepared in compliance with the minimum audit standards.

- Audit documentation must describe the procedures performed, items reviewed, and the results of such procedures and reviews to support the auditor's CQ responses and related comments.
- Evidence may be obtained through test work, observation, examination, and client assertion. However, client assertion alone is not adequate evidence to support "Yes" responses on the CQ.
- The audit firm must determine the district reviewed documents and transactions and provided sufficient evidence of approval including manual or electronic signatures or initials and date of review.
- Audit firms must consider population size in determining the number of items to test (i.e., sample, scan, review, examine, or observe), and the items selected should be representative of the population. Therefore, testing 1 transaction, record, or item is not sufficient. The Credit cards and purchasing cards, Procurement, and Student attendance reporting CQ sections prescribe minimum sample sizes for specific questions. Population and samples sizes used for test work should be entered in the fields provided next to the applicable questions throughout the CQ.
- A "Yes" response indicates that the audit firm has determined that the district complied with the USFR for that question based on auditor obtained evidence. Several review procedures allow for auditors to determine whether the district implemented compensating controls when recommended USFR procedures could not be implemented due to limited staff size. When compensating controls are found, auditors should answer the question "Yes" and describe in the comments the compensating controls in place to meet the question's objective. However, the Arizona Auditor General makes the final determination of compliance with the USFR based on the evidence presented in the CQ, audit reports, audit documentation, and any other sources of information available.
- A "No" response indicates the district did not comply with the USFR for that question. Audit firms must explain the district's deficiency noted for all "No" responses in the comment box below the question. Deficiencies must be described in sufficient detail to enable the Arizona Auditor General to determine the nature and significance of the deficiency for: (a) assessing compliance with the USFR, (b) appropriately describing the deficiency in a report, and (c) testing compliance during a status review. The description should include the number of items tested and the number of exceptions noted, or dollar amount of the error, and any other relevant information that would provide context for the deficiency.
Cash and revenues questions apply to all the district's cash and revenue, including food service, auxiliary operations, extracurricular activities fees tax credit, and student activities receipts and bank accounts. Comments for "No" responses to these questions should indicate the type of receipt or bank account to which the deficiency applies.
- An "N/A" response indicates the district did not have activity related to the USFR requirements for that question. The audit firm must explain all "N/A" responses in the comment box below the question, unless the reason for the N/A is obvious.

The questions in the CQ do not address all requirements of the USFR. If the audit firm is aware of noncompliance with a requirement of the USFR that is not addressed in the CQ, including the School District Procurement Rules and the Arizona Department of Education's (ADE) membership and attendance guidelines, the audit firm should include the compliance findings in its reports issued in accordance with Governmental Auditing Standards and Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*, as applicable.

The audit firm must make the resulting audit documentation supporting the audit firm's CQ responses and comments available on request for the Arizona Auditor General and the ADE's review. To facilitate this review, the audit firm should include in the audit documentation a copy of the CQ with references to the audit procedures performed for each question.

Once the audit firm has completed, reviewed, and signed the CQ, it must submit it electronically to the Arizona Auditor General by following the instructions at the end of the web-based auditor submission CQ. Audit firms should print the file to PDF to create the CQ document to distribute to the district. As required by A.R.S. §15- 914(D), the district must submit the completed CQ with the audit reporting package to the district's county school superintendent's office and ADE.

Governing board/management procedures

Objective: To determine whether the governing board and District management have established and implemented certain procedures as required by statute.

1. The District held governing board meetings in accordance with [A.R.S. §§38-431 to 38-431.09](#), and prepared and retained written minutes and/or recordings.

Yes ▼

2. The District annually provided guidance to all governing board members and employees on what constitutes a substantial interest and that the conflict-of-interest statutes apply to all District governing board members and employees as part of their employment. [A.R.S. §§38-502](#) and [38-509](#)

Yes ▼

3. The District annually obtained conflict-of-interest (COI) forms that adequately allowed governing board members and employees to fully disclose a conflict of interest in any contract, sale, purchase, or service, and prior to accepting the forms, management reviewed the information to ensure governing board members and employees properly completed the form and sufficiently disclosed the required information. [A.R.S. §38-502](#)

No ▼

Conflict-of-interest forms were not maintained for employees.

4. The District maintained, for public inspection, a special file with all documents necessary to memorialize all conflict-of-interest disclosures. [A.R.S. §38-509](#)

No ▼

Conflict-of-interest forms were not maintained on file for employees.

5. Employees or governing board members with reported conflicts, except as provided in [A.R.S. §15-323](#), refrained from voting upon or otherwise participating in any manner in that purchase. [A.R.S. §§38-502\(11\)](#) and [38-503\(B\)](#)

N/A ▼

No such conflicts.

6. The District's management notified the Arizona Auditor General and appropriately resolved all allegations of theft, fraud, or misuse of District monies and assets in a timely manner.

No allegations of theft, fraud, or misuse during fiscal year 2021-22.

7. The governing board established written personnel and payroll policies and approved employee contracts, wage agreements, salary and wage schedules, and any other agreed-upon terms of employment.

8. The governing board appointed a student activities treasurer and, if applicable, assistant student activities treasurers. [A.R.S. §15-1122](#)

9. The governing board received monthly Student Activities Fund Reports of Cash Receipts, Disbursements, Transfers, and Cash Balances that were accurately prepared. [A.R.S. §15-1123](#)

10. The governing board approved student clubs' and organizations' fund-raising events. [A.R.S. §15-1121](#) and AG Opinion I84-018

Sample

11. The governing board obtained voter approval to construct buildings and purchase or lease school sites, unless otherwise exempted by [A.R.S. §15-342\(25\)](#).

No such expenditures.

Budgeting

Objective: To determine whether the District's budget preparation processes ensure that the District properly allocates the monies it receives, stays within those budgets, and accurately informs the public about the use of those monies.

1. The budget included all funds as required by [A.R.S. §15-905](#) and followed the form's [Budget—Submission and Publication Instructions](#). Yes

2. Total budgeted expenditures on the originally adopted budget for the Maintenance and Operation (M&O) and Unrestricted Capital Outlay Funds (UCO) were less than or equal to the budgeted amounts on the published proposed budget. [A.R.S. §15-905\(E\)](#). Yes

3. Total budgeted expenditures on the adopted budget for the M&O Fund and UCO Fund were within the general budget limit and the unrestricted capital budget limit. If not, and ADE notified the District that the budget exceeded either limit, the District followed the requirements of [A.R.S. §15-905\(E\)](#). Yes

4. The District completed its revised expenditure budget before May 15 and filed it electronically with the Superintendent of Public Instruction by May 18. [A.R.S. §15-905\(I\)](#). Yes

5. The District reduced the budget by the prior year's overexpenditure (or a portion of the prior year's overexpenditure, as approved by the Superintendent of Public Instruction) or the District began the process to correct its prior year's data that impacts state-aid and/or budget capacity. [A.R.S. §15-905\(M\)](#) and [A.R.S. §15-915](#). N/A

No prior year over-expenditures.

Accounting records

Objective: To determine whether the District accurately maintains accounting records to provide support for financial information.

Test work should indicate the procedures performed to document what processes and controls the District has in place to reduce the risk of undiscovered errors that would affect the reliability of information reported to the public and oversight agencies, such as tracing detailed source documents to the District's trial balance that agree to the financial statements.

1. The District coded transactions in accordance with the [USFR §III Chart of Accounts](#).

No

1.)The District improperly recorded \$9,450 of Emergency Connectivity Fund revenue in the E-Rate Fund 374. 2.) The District did not move E-Rate expenditures from other funds into the E-Rate Fund to match reimbursements resulting in the accumulation of cash in the fund, which is intended to operate on a reimbursement basis. 3.) The District misclassified a principal payment of \$1.85 million to bond proceeds and interest expenditures of \$494K to interest revenue. 4.) The District did not properly allocate the property tax levy, resulting in an understatement to Adjacent Ways revenue and an overstatement of Unrestricted Capital Outlay revenue. 5.) The District moved \$93,689 of 67XX expenditures from the Unrestricted Capital Outlay Fund to the ESSER III Fund, but improperly coded the expenditures to object 6600.
